PROFESSIONAL SUMMARY

Talented Front-End Developer dedicated to crafting responsive and visually engaging web interfaces utilizing HTML, CSS, and JavaScript. Proficient in contemporary frameworks such as React.js, Angular, and Vue.js, delivering optimal performance and smooth user experiences. Experienced **MERN stack developer**, skilled in building full-stack applications using MongoDB, Express.js, React.js, and Node.js.

EXPERIENCE

Imaginnovate, Visakhapatnam— Software Engineer

March 2022 - PRESENT

- Specializes in delivering innovative software solutions.
- Incorporated external APIs to enhance web application data transfer and live updates.
- Developed a modular, single-page application using Angular.
- Specializes in developing cutting-edge software solutions.

EDUCATION

Dr. B.R Ambedkar University, Srikakulam— B.sc(mccs)

March 2017 - March 2020

PROJECTS

Blended Sense
- **Duration:** October 2022 - October 2023
- **Tech Stack:** Vue.js, Stripe.js
- **Description:** Contributed to the development of a dynamic and responsive user interface using Vue.js. Integrated secure payment flows using Stripe.js to support subscription-based services. Ensured seamless user experiences by applying modern front-end best practices across various components.

Freight Facts
- **Duration:** October 2023 - December 2024
- **Tech Stack:** Angular
- **Description:** Developed and optimized front-end components for a logistics and data-driven platform, focusing on performance, accessibility, and cross-browser compatibility.

Southern Baptist Disaster Relief
- **Duration:** April 2024 - February 2025
- **Tech Stack:** Angular
- **Description:** Led front-end development for a disaster response coordination platform, emphasizing usability, mobile responsiveness, and real-time UI updates.

Fleetenable (Product-Based Project)
- **Duration:** February 2025 – Present
- **Tech Stack:** React.js
- **Description:** Building scalable and high-performance UI for a logistics management product using React.js. Worked on real-time data visualizations, streamlined workflows.

SKILLS

Front-End Developer:
- HTML
- CSS
- JavaScript
- TypeScript
- React.js
- Angular
- Vue.js

Back-End Developer:
- Node.js

KEY ACHIEVEMENTS

Hackathon Winner Participated in a hackathon at Imaginnovate and won first prize for creating an application for 3D container structure using **Three.js**.

Angular For the **Angular application**, I focused on **code optimization** and production readiness.

Stripe Payment Integrated Stripe for secure and global payment processing, enhancing business reach and **user experience**.
